Cable Suspension Installation

1 Fasten barrel to ceiling

Fasten the barrel by your chosen method.
i.e. Plastic anchors with screws for concrete

2 Male end of barrel

Feed entire length of steel cable through male end of barrel until secured.

3 Fasten barrel

Thread and lock the 2 barrel ends firmly.

Tools required

Screw driver (Flat & Philips)
Cordless drill

Fasten the Suspension Gripper onto Fitting

1 Suspension gripper

Slide the suspension gripper into the T-section.

Ensure the rounded edges of the rectangular fastener is on the right hand side.
